Medi-Cal Billing Seminars for 2004!

Attend!

the most comprehensive Medi-Cal training! Become an expert biller and receive reimbursement quickly! Reduce Medi-Cal denials! New and experienced billers will learn how to complete claims accurately.

Changes that occurred in 2003 may affect your billing practice. Bring your problems to our door! We'll show you how to resolve outstanding claims in the Claims Assistance Room. If you have problem claims and have not received reimbursement, our regional representatives will personally help you resolve those claims.

Plan!

to attend a Medi-Cal seminar in 2004! Medi-Cal will host conference-style seminars at a location near you.

Reimbursement Rates Automatically Updated on the Web

Rate information available on the Medi-Cal Web site is now automatically updated monthly. Current rate information is available at www.medi-cal.ca.gov by clicking “Medi-Cal Rates”.

Laboratory Rate Adjustments

Effective for dates of service on or after October 1, 2003, reimbursement rates for laboratory procedure codes were adjusted to a rate not to exceed 80 percent of Medicare’s rates in accordance with Assembly Bill 1762 for 2003 State budget reductions. A pricing error has been identified for some of the new reimbursement rates. Previously reimbursed claims for the affected service codes, submitted for dates of service on or after October 30, 2003, will be automatically reprocessed and result in an increased payment.

In addition, the following laboratory codes were submitted “By Report,” but are now priced and will no longer need to be submitted with pricing documentation. The maximum reimbursement rates are as follows:

CPT-4		
<u>Code</u>	<u>Description</u>	<u>Rate</u>
86294	Immunoassay for tumor antigen, qualitative or semiquantitative	\$ 21.69
87338	Helicobacter pylori, stool	15.90
88142	Cytopathology, cervical or vaginal (any reporting system), collected in preservative fluid, automated thin layer preparation; manual screening under physician supervision	22.40
88143	...with manual screening and rescreening under physician supervision	19.60
88356	Morphometric analysis; nerve	260.38

Affected claims will be automatically reprocessed at the correct rates.

The updated rates are reflected on manual replacement pages rates max lab 1, 2, 4, 5, 7 and 8 (Part 2).

Dysplasia: Concurrent Diagnosis and Service Codes Added

Effective for dates of service on or after March 1, 2004, ICD-9 code 233.1 (carcinoma in situ of breast and genitourinary system; cervix uteri) has been added as a Family PACT (Planning, Access, Care and Treatment) Program benefit. This new concurrent core code may be used in conjunction with a primary diagnosis “S” code and with the appropriate CPT-4 code(s) while following specific billing conditions when treating dysplasia. ICD-9 code 233.1 can be billed in conjunction with all primary diagnosis codes except S601 – S602 and S801 – S802 and all complications codes except S8013 – S8033. This service applies to female recipients only.

The following dysplasia services have been added to the Family PACT Program. These CPT-4 codes may be billed with ICD-9 diagnosis codes 233.1 and 622.1 in conjunction with the appropriate primary diagnosis “S” code:

CPT-4

Code	Description
57455	Colposcopy of the cervix including upper/adjacent vagina; with biopsy(s) of the cervix
57456	...with endocervical curettage
58100	Endometrial sampling (biopsy) with or without endocervical sampling (biopsy), without cervical dilation, any method (separate procedure)

CPT-4 code 58100 must be billed “By Report” with a cervical cytology laboratory report attached to the claim indicating the following:

- Abnormal bleeding
- Atypical glandular cells (AGC), 36 through 55 years of age, or
- Atypical endometrial cells

Claims submitted without this documentation will be denied.

The revised *Family PACT Policies, Procedures and Billing Instructions* (PPBI) manual will be issued in a future *Updated Information*. For more information regarding Family PACT, call the Telephone Service Center (TSC) at 1-800-541-5555.

Required Provider Orientation and Update Sessions

Medi-Cal providers seeking enrollment in the Family PACT (Planning, Access, Care and Treatment) Program are required to attend a Provider Orientation and Update Session. Dates through June 2004 are listed below.

Group providers wishing to enroll must send a physician-owner to the session. Clinics wishing to enroll must send the medical director or clinician responsible for oversight of medical services rendered in connection with the Medi-Cal provider number.

Office staff members, such as clinic managers and receptionists, are encouraged to attend but are not eligible to receive a *Certificate of Attendance*. Currently enrolled clinicians and staff are encouraged to attend to remain current with program policies and services. Medi-Cal laboratory and pharmacy providers are automatically eligible to participate in the Family PACT Program without attending an orientation session.

The session covers Family PACT provider enrollment and responsibilities, client eligibility and enrollment, special scope of client services and benefits, provider resources and client education materials. This is not a billing seminar.

Please see **Provider Orientation**, page 5
